Price  
Upon request

### Biography

Pamen Pereira presents a work swinging among drawing, painting, sculpture, installation, photography or video sometimes... Or just among that things different from those previously mentioned but useful to carry out the act of creating. At present her interest is focused on specific installations or interventions for both, public or private sites, as a challenge regarding the social aspect of the art, the role of the artist in our society and the important function of its poetic image.
