Concept

The presence of wood is always prominent in many of Wood&'s designs due to its connectivity its liveliness and texture; Georges Mohasseb, through his experimentation of materials and textures tries to look for the best possible combinations. His constant search for immateriality characterizes his design approach and gives an identity for every project he develops, be it, architectural, custom, furniture and lighting design projects

Biography

Georges has been working as an architect and designer for eleven years. Through his professional experience and intensive workshops he mastered wood furniture making techniques prominent in each of his designs. His passion for design has brought him to teach in many renowned academic institutions in Europe and in the U.S.
